

Can I stop an email campaign?

Last Modified on 20/10/2016 11:09 am AEDT

If you start to send a campaign and realise you need to stop it complete the following.

For Member Email Blasts go to **Members > Send Email > Campaign Management > Incomplete**

For Email Database Campaigns go to **Tools > Email Databases > Manage Campaign > Select the email database you sent to from the drop-down.**

For all incomplete campaigns you will see a 'red stop sign' icon. To stop the campaign, click this icon.
