

Add State/National News To Your Club Website

Last Modified on 19/08/2016 10:42 am AEST

This article relates to Site 2.0

If your club has a Site 2.0 website and your state or national sporting body has a Site Pro website with SportsTG, it is easy to set up an RSS feed to show their news updates.

1. Click the blue ADD ELEMENT icon on any page.

2. Select the element type SITE PRO RSS FEED.

A screenshot of the 'Add Element' dialog box. It has a blue header with the text 'Add Element'. Below the header, there are two rows. The first row is labeled 'Element Type:' and has a dropdown menu with 'SiteDesq Pro RSS Feed' selected. The second row is labeled 'Element Design:' and has a dropdown menu with 'Border & Header' selected.

3. Open the state or national website that you want to add the feed from. Click on the RSS feed icon.

4. Copy the URL of the RSS Feed page from the address bar.

5. Go back to the club website and paste this in the SITES PRO RSS FEED URL box. Give the element a title. You can also select how many stories that you would like to display at a time.

A screenshot of the configuration dialog box for the Site Pro RSS Feed. It has three rows of input fields. The first row is labeled 'Title' and has 'State News' entered. The second row is labeled 'SiteDesq Pro RSS Feed URL' and has 'http://www.baseballvictoria.com.au/News/ctl/rss/mid/7028' entered. The third row is labeled 'How Many Stories To Display?' and has '5' selected in a dropdown menu. At the bottom left, there are two buttons: 'Save' (blue) and 'Close' (white).

6. Your club website will now show the RSS feed.
