

Logging In

Last Modified on 19/08/2016 10:56 am AEST

This article relates to SitePro

Quick Steps: Add /login after domain name > Enter credentials > Login

To make any alterations to your website, you will need to log in to the CMS.

1. After your domain name, add **/login**
2. Enter your login credentials
3. Click the blue **Login** button

To log off at the end of your session, you can type `/logoff.aspx` after the domain name.
