

Printing Fixtures

Last Modified on 27/10/2016 9:11 am AEDT

Quick Steps: Go to Competitions > Select Relevant Competition > Fixtures > Export PDF

The Sports Portal allows team administrators to export and print a PDF of the entire competition fixture for distribution to teams. This allows teams to have a hard copy of the fixture, though the online version should always be referred to in case of late changes to the schedule.

Printing Fixtures

1. Go to **COMPETITIONS**.
2. Select the relevant competition from the listing. This will display the fixtures for the competition.
3. Click **EXPORT PDF** above the fixtures to download the PDF and print from your computer.

Please Note: This will print the whole fixture for the competition or division. To view an individual teams schedule, click on the display team schedule icon.
