

# Setting Sold Out Items to Display

Last Modified on 03/02/2017 11:01 am AEDT

## Quick Steps: Shop > Products > Products

When a product is Sold Out it will no longer display on the front end store until it has units available again. This can be changed by setting sold out items to continue to display in the product information.

1. Within the Management Console, select **Shop** from the top menu, then **Products** from the left menu.
2. Select **Products** from the expanded left menu.
3. Click on **Edit** next to the product that you wish to make changes to.

[Add](#) [Copy](#) [Export](#) [Mass Update](#)

Category: All

Search For:  In: Title

Records: 1-14 of 14

Order	Title	Units	Images	Price	Edit	View	Delete	Status
0	Gloves	49		\$0.00	Edit Record			
0	Guernsey	100		\$0.00				
0	Dele	100		\$20.00				

## 4. Go to Price & Stock Information.

5. Change **Sold Out Display** to Yes, and then you can add an optional message to display when the product is sold out.
