

Reset Auction Members Details

Last Modified on 19/08/2016 2:22 pm AEST

The system automatically generates their username and password which are a random sequence of letters and numbers. You can edit these details for them via the following steps:

Find out the club auction site they are wanting to bid on and log into the club console:

Auction > Members > Search for the member based on their first or surname > Edit > Username/Password:

The screenshot shows a form titled 'Access' with two input fields. The 'Username:' field contains the text 'UUX3whUZ' and the 'Password:' field contains the text 'HQMPkEzy'. The form is enclosed in a rectangular border with small square handles at the corners, suggesting it is a screenshot of a web application interface.

I recommend to change their details as well

Username: The customer username as one word, example: AnitaMarchionna

Password: Password1

And advise them that once they are logged into their account, they can edit these details to something more memorable via Edit Account and scrolling down to the bottom.
