

# What Website Type Do I Have?

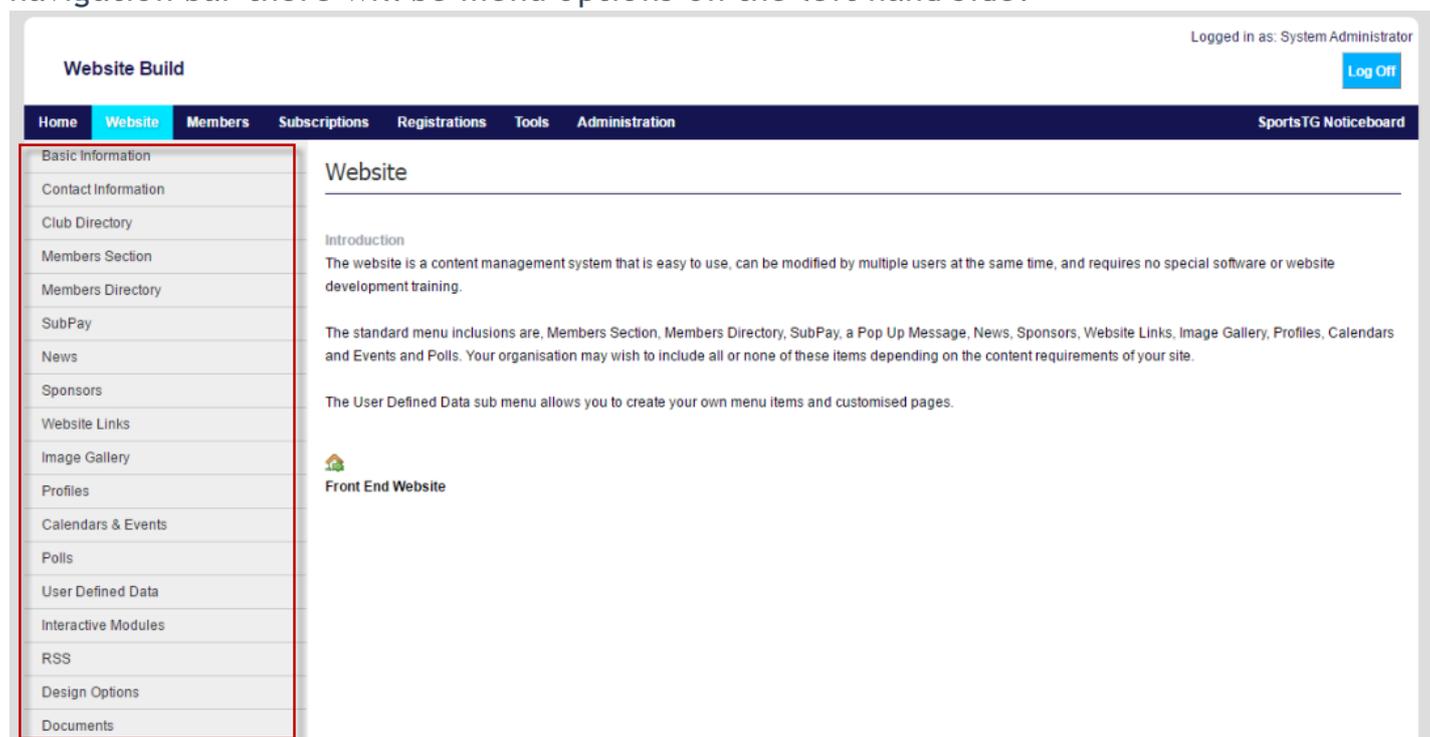

Last Modified on 20/02/2017 12:16 pm AEDT

*This article applies to the Classic system only*

There are two types of free website offerings that you could have and these are:

- **SiteDesq 1.0**

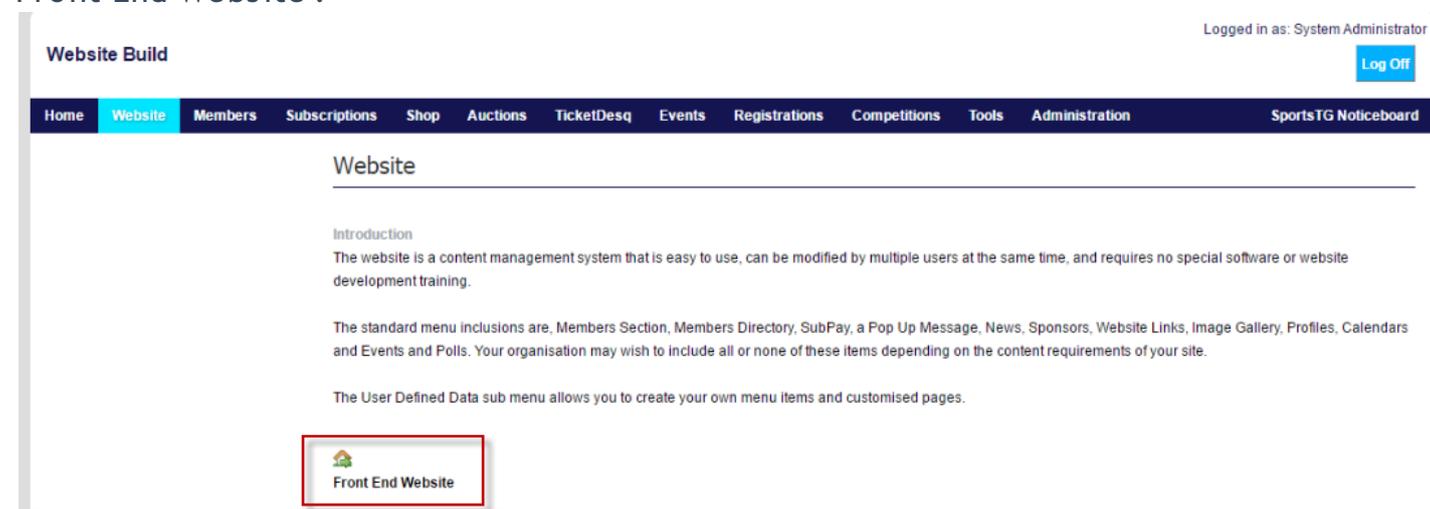

If you have a SiteDesq 1.0 when you navigate to the Website option in your top navigation bar there will be menu options on the left hand side:

The screenshot shows the 'Website Build' interface for SiteDesq 1.0. At the top right, it says 'Logged in as: System Administrator' with a 'Log Off' button. The main navigation bar includes 'Home', 'Website', 'Members', 'Subscriptions', 'Registrations', 'Tools', and 'Administration'. A 'SportsTG Noticeboard' is visible on the right. On the left, a sidebar menu is highlighted with a red box, listing options: Basic Information, Contact Information, Club Directory, Members Section, Members Directory, SubPay, News, Sponsors, Website Links, Image Gallery, Profiles, Calendars & Events, Polls, User Defined Data, Interactive Modules, RSS, Design Options, and Documents. The main content area is titled 'Website' and contains an 'Introduction' section explaining the system's ease of use and multi-user capability. It also lists standard menu inclusions and mentions the 'User Defined Data' sub-menu. At the bottom, there is a 'Front End Website' link with a house icon, which is not highlighted in this screenshot.

- **Sitedesq 2.0**

If you have a SiteDesq 2.0 when you navigate to the Website option you will see a link to 'Front End Website':

The screenshot shows the 'Website Build' interface for SiteDesq 2.0. At the top right, it says 'Logged in as: System Administrator' with a 'Log Off' button. The main navigation bar includes 'Home', 'Website', 'Members', 'Subscriptions', 'Shop', 'Auctions', 'TicketDesq', 'Events', 'Registrations', 'Competitions', 'Tools', and 'Administration'. A 'SportsTG Noticeboard' is visible on the right. The main content area is titled 'Website' and contains an 'Introduction' section explaining the system's ease of use and multi-user capability. It also lists standard menu inclusions and mentions the 'User Defined Data' sub-menu. At the bottom, there is a 'Front End Website' link with a house icon, which is highlighted with a red box.
